

How to do Scroll on iPhone?

The scroll function was added to the accessibility on IOS 13.5.1. So first, please update the IOS version on your iPhone to the lastest new version IOS 13.5.1.

Ceneral About	
Name	iPhone >
Software Version	13.5.1
Model Name	iPhone XR
Model Number	MRY52QL/A

After connecting GlassOuse with iPhone, please follow the steps to click and perform the operation to add the scroll function :)

1. Find and Click Accessibility in Settings

Settings				
\bigcirc	General	>		
	Control Center	>		
AA	Display & Brightness	>		
Ì	Accessibility	>		
	Wallpaper	>		
	Siri & Search	>		

2. Find and Click Touch in Accessibility

<pre>Settings Accessibility</pre>	
Audio Descriptions	Off >
PHYSICAL AND MOTOR	
🖢 Touch	>
Eace ID & Attention	>
BB Switch Control	Off >
😥 Voice Control	Off >

3. Find and Click AssistiveTouch in Touch

<pre>〈Accessibility Touch</pre>				
AssistiveTouch	On >			
AssistiveTouch allows you to use your iPhone if you have difficulty touching the screen or if you require an adaptive accessory.
