

Scissor Solutions

From crafting at school to trying to open packaging at home - we reach for scissors more often than we realise! Ordinary scissors can be difficult to operate with reduced hand function, but we have a range of solutions.

Table Top Scissors

Easy to use, simply requiring a pushing down action on the "T" shaped handle. The spring will automatically re-open the scissors once the pressure is released.

Great For: Reduced Hand Function

Key Features: Large Handles | Stainless Steel Blades | No Grip Required

Easi-Grip Scissors

These lightweight scissors automatically reopen after each cut, reducing strain on the hand. They are available for left or right hands in child or adult sizes, and there is even a mini ambidextrous children's version.

Great For: Weak Grip | Limited Hand Strength | Difficulty Isolating Fingers

Key Features: Lightweight | Stainless Steel Blades | Comfortable Grip

Long Loop Scissors

These Long Loop Scissors have an extended loop to give increased strength and control over the cutting action. They are available for left or right hands in child or adult sizes,

Great For: Weak Grip | Limited Hand Strength | Poor Motor Control

Key Features: Long Loop Handle for Optimal Scissor Control | Wide Finger Contact Area | Stainless Steel Blade

Nimble - One Finger Cutting Tool

When scissors don't cut it! Nimble is the one-finger package opener that increases independence in the kitchen, the office, and in all aspects of daily life. All it takes is one swipe of your finger.

Great For: Joint Pain | Limited Hand Strength | Tremors | One-Handed Use

Key Features: Safe Blade Profile | Brightly Coloured for Easy Visibility | One-Finger Operation
